

**COVID-19 related State aids supporting the tourism industry**  
(as of 11/12/2020)

List of schemes set up by Member States under the '[Temporary Framework for State aid measures to support the economy in the current COVID-19 outbreak](#)' (19 March 2020)<sup>1</sup>. Based on the list of authorised State aid in the EU<sup>2</sup> and requests reviewed by the Commission but not yet published. The table does not include COVID schemes that don't require a decision of the Commission<sup>3</sup>.

In total, the tourism industry is eligible for support under 269 COVID schemes + 4 under review<sup>4</sup>:

- 86 of them are (almost) exclusively focusing on the travel and tourism industry
- 14 of them encompass a multisectoral measure and a tourism specific measure
- 36 of them are multisectoral schemes mentioning tourism / one segment of the tourism ecosystem
- 137 of them are multisectoral schemes open to / benefitting<sup>5</sup> tourism but without mentioning it.

<sup>1</sup> Therefore the table does not include for instance the prolongation of pre-COVID schemes like DE tax reduction for flights to and from certain North Sea islands scheme (SA.58188), DK 'Service of General Economic Interest' compensation for Bornholm Airport (SA.57878), AT prolongation until 2023 of the 2015 scheme for rescue and restructuring of Austrian SMEs in difficulty active in the tourism and leisure sectors (SA.59802), FR restructuring loan to Corsair (SA.58463), etc.

- COVID schemes exclusively dedicated to production of vaccines, medical equipment and other health related matters or to fishery & agriculture;
- tourism related schemes not linked to COVID (e.g. decisions of 13 March on long term infrastructure investments for Oostende and Antwerp airports);
- COVID multisectoral schemes excluding tourism (i.e. SA.56926 Hungary, Aid measures for increasing competitiveness of undertakings in relation with the COVID-19 outbreak which excludes 'tourism activities project'/'transport of passengers'; SA.57375 Hungary, COVID-19 Compensation scheme related to future investment excluding, inter alia, transport of passengers by aircraft, maritime transport, road, rail, or by inland waterway, tourism; SA.57094 Czechia, COVID-19 - Loan guarantee scheme for large exporters; SA.58104./ SA.58839 Latvia, Limited amounts of aid (direct grant scheme) to support the employer's mandatory State social security contributions for undertakings exporting goods and services);
- Schemes only excluding casinos and gambling activities have on the contrary been kept – references in a number of Structural funds countries like RO).

<sup>3</sup> Schemes benefiting from block exemptions, complying with the de minimis rules, focusing on temporary lay-off schemes ...

<sup>4</sup> As some decisions are amending schemes, the number of decisions is higher than the number of schemes.

<sup>5</sup> Under certain schemes, tourism is not among direct but indirect or final beneficiaries (e.g. support for trade credit insurers that must be passed on to policyholders like tour operators buying tourism services abroad).

<sup>12</sup> The scheme does not provide a budgetary breakdown for direct grants, guarantees on loans, subsidised interest rates and deferrals of taxes. The combination of these support measures aims at covering the net losses of the airport operators caused by the COVID-19 restrictions from 4 March 2020 to 30 June 2020. German authorities estimate that compensation payments could amount to EUR 1.36 billion. This amount has therefore be encoded under Grants.

<sup>13</sup> Aid comes in the form of two loans (EUR 500 Million) with subsidized interest rates and 100% State guarantee. The scheme does not provide a budgetary breakdown for the cost of subsidized interest rates and the cost of the guarantee. These loans have been encoded under subsidised loans.

<sup>14</sup> The scheme does not provide a budgetary breakdown for direct grants, tax or payment advantages (assimilated to grants), and repayable advances. German authorities estimate that the aid volume would not exceed EUR 45 billion. An arbitrary 75/25 ratio has been used.
