## THE BIO-WASTE SORTING

# SYNHORCAT

*Syndicat National des Hôteliers  
Restaurateurs, Cafetiers et Traiteurs*

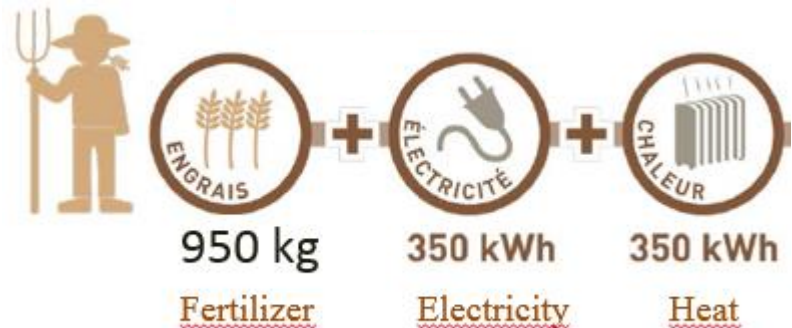

Membre du GNI, Groupement National des Indépendants

## I. HOW DOES IT WORK ?

1. We need to sort these bio waste
2. We collect
3. We transform bio waste into usable products

## III. THE VIRTUOUS CIRCLE

# Results

200 tones of bio-waste collected in Paris per year

Imagine throughout France !

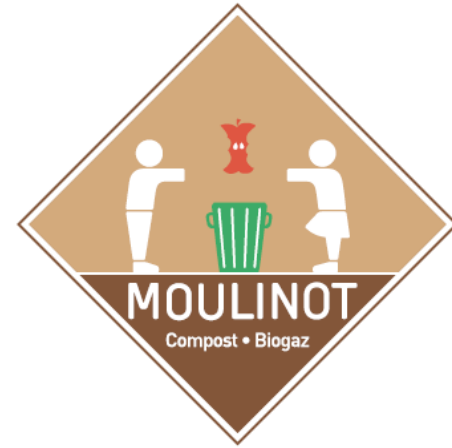

Imagine throughout Europe !

## IV. THE REASONS WHY TO SORT BIO-WASTE

# Reasons why to sort bio waste

- Choose a good communication for the sector
- Support the circular economy
- Act in favor of sustainable development
- Act on losses and food waste
- Avoid taxes : you have to choose between taking things in your hands or to pay the fine of 75.000€ and risk years of jail from 2016

Transform a waste into a secondary raw material  
→ too good to waste !

- Follow-up in real time of bio-waste collects : [moulinot.fr](http://moulinot.fr)
